

FIND 16,000 ANTI-RED SOLDIERS FROZEN TO DEATH

FIRST AERIAL VIEW OF THE FAMOUS KRUPP WORKS AT ESSEN.

The above photograph is of particular interest in view of the capture, yesterday at Essen by a Spartan army of 100,000 men and 77 guns. After ten attempts to obtain a photo-topograph had failed because of the smoke and haze, which hangs over the world's largest industrial plant, an aviator's perseverance was finally rewarded. The works, which are now turning out locomotives and freight cars, cover eight square miles and employ 17,000 people.

NEW GERMAN CABINET MATTER OF FEW HOURS

Socialists Will Hold Several Important Posts

Meanwhile Fighting Goes On in Several Zones

(A. P. Special Cable.)

Copenhagen, March 24.—Formation of a new German Cabinet is a matter of only a few hours, and Independent Socialists are sure of getting several important portfolios, according to telegrams from Berlin this morning.

Gas, water and electric service has not been resumed in Berlin, and the tramways are still idle, as the Independent Socialists have assumed a waiting attitude. They are said to be dissatisfied with the Government's "soft methods toward traitors," while armed Spartacists are simply stood against the wall.

ASK POWER TO RULE RUHR.

Paris, March 24.—(Havas)—Following up the request of the German Government that the Supreme Council authorize the sending of German troops in the Ruhr district, German officers have arrived in Paris to present the project before the representatives of the Allies. It is understood that they will ask permission for the State Government to send 100,000 soldiers or police into that territory.

FIGHTING IN TWO DISTRICTS.

Coblenz, March 24.—Fighting was reported yesterday afternoon in Gotha and Thuringia. A number of officials driven out of Essen and now in Coblenz say that the Spartacists were well armed and equipped and that neither side is giving quarter.

HOT CLASH AT WESSEL.

West, Germany, March 24.—Six thousand Government troops, reinforced by armoured cars, had a battle with Communist guards numbering 1,000, who were held overnight. Report states 62 were killed and upwards of 100 wounded during the clash.

RISING AGAINST MILITARISM.

Dusseldorf, March 24.—By the Associated Press)—Leaders of the elements which have taken over the control of this city insist the movement should not be termed Communistic, as Soviets throughout Germany are considered responsible for the recent disturbances.

The Government forces are to remain on the northern side of the town to advise, retrain, should these be sent, or to provide for a possible retreat.

Heavy firing was heard from the

front line, but no real army to be seen.

Pfeiffer, one of the eight members of the Dusseldorf executive committee, installed in the provincial Government, here gave to the Associated Press statement of the workers' views. He said the movement participated by the Kapp revolt was purely a movement of the workers against that military movement, and militarism in general.

"This is not a civil revolution," he declared. "At the moment at least we are standing on the same grounds as the regular Government chosen by the people of Germany."

He said the Government wanted the Government to do its best to uphold the people's will expressed in the strike.

He said a decided move to the left towards Socialism and to crush militarism was now under way.

As it has dared to show itself this Kapp revolt, as far as I am concerned, has failed to uphold the principles of the revolution of November, 1918, whereby our people got the right to rule and their military supporters fled.

"A civil war is an uprising for a revolution, but only a decided vote of distrust against the Government at Berlin and the city government can bring about a civil war," he said.

He said that he had failed to uphold the principles of the revolution of November, 1918, whereby our people got the right to rule and their military supporters fled.

"This will go smoothly," he said.

The workers in industry and the trade unions will work hard, with a will, until military rule is overthrown.

He said that he had failed to uphold the principles of the revolution of November, 1918, whereby our people got the right to rule and their military supporters fled.

"This will go smoothly," he said.

The workers in industry and the trade unions will work hard, with a will, until military rule is overthrown.

He said that he had failed to uphold the principles of the revolution of November, 1918, whereby our people got the right to rule and their military supporters fled.

WILL NOT WIDEN MERRICK STREET AT THE MARKET

Recommendation of Committee Was Adopted Without Comment.

HOMESIDE FLOODING

Another Law Firm Writing On Behalf of Some Residents.

The special sub-committee that was appointed to go into the matter of raising the present width of Merrick street increased by 17 feet, brought in a report at last night's meeting of the Works Committee, that no action is to be taken. Ald. Mellette, chairman of the sub-committee, reported that he and his colleagues believed the project was not a feasible one, because they felt Merrick street was wide enough as it is at present, and anyway, it was thought that the market should not be further diminished, as it is believed to be not any longer needed for the present or future needs. The Works Committee adopted the report without any comment.

The parkette was collected twice each week during the summer months was the tenor of a motion made by Ald. Trelawny, who said that the difficulty would, however, for the reason that difficulty would be experienced in engaging sufficient men to make the extension.

Permit was refused Ross & Miller to install a gasoline tank in front of the premises located at 25 and 27 Clark street, owned by Mr. and Mrs. Walker-Vallance, Limited, to store an air stand from King street west to 27 Main street which was referred to the Gasoline Tax Board.

The request of the Hydro Commission that it be returned to 1917 rates of \$1.00 per kw. hour, which was on the city's street lighting account, was sent to the Board of Control, Controller Office, ex-acted that the amount of their bill be paid in full in order and should be complied with, so that the latter could straighten up its books.

Mr. Simpson wrote the committee demanding that action be taken regarding flooding on the property of Mr. and Mrs. H. Rutherford, 112 Main street, in the Hockley district. The matter was referred to the city engineer.

A house in the 30th street of the Sunnyside community, which had been planned for the removal of the street light pole, was abandoned, and Mrs. H. Rutherford's representations that she had sold the house to Mr. and Mrs. G. C. Gray, reported until the proposed low level sewer in that vicinity is installed. This system, if installed, will cost about \$10,000. Mr. Gray was instructed to attend to the matter and include it in the new level sewer project.

James Burris street, objected to a Cataract pole being erected on the right side of the street, and it was to be done, so, to carry the Cataract wire to another man's house four houses from his property. Mr. James Burris, who was the one who was getting the light should have the pole put in front of his own property. It was expected that the distance would be of every 100 feet, and that in this case the distance was 119 feet. Mr. Gray did not think he was correct, and the committee, when he was told that the committee, by a vote of 5 to 1 favored the pole going on his lawn.

WILL CO-OPERATE WITH THE CITY

Barton Takes Friendly Stand On Annexation.

Settlement of Roxborough Taxes Wanted.

At a special meeting of Barton Township Council yesterday afternoon, to discuss the annexation of Homeside to the city, it was decided that a committee of the same number as appointed by the city, would be appointed by the township to the city committee. The committee will meet in the near future and all important arrangements for the annexation proceedings will be determined.

The report of the Ontario Railway and Municipal Board was read and approved.

The town clerk, treasurer and assessor will prepare all data for the annexation proceedings, especially regarding a report of the assets and liabilities.

The township solicitor was asked to form a settlement of the amount of money due the city for Roxborough taxes of the township. It was pointed out that they owed between \$800 and \$1,000 in grand total and also taxes.

In the report of the Ontario Railway and Municipal Board, it stated that the township was to throw all the land open to the city in the year of tax collection. When the city has collected the taxes, they must pay 25 per cent. of them back to the township for use of the school sections.

Bill Snyder Re-Elected Chairman of H. A. B. A.; Fred Howard on Board**Annual Meeting of Amateur Body Held Last Evening—Albert Waite is Secretary Again**

William Snyder is to be chairman of the Hamilton Amateur Baseball Association for the season of 1920, for despite his protest he was elected to that office at the annual meeting of the amateur body held last evening at the Central Club. Mr. Snyder had held the same position for two years, and it is due to his untiring efforts that amateur baseball was put on a firm basis in this city. This was his ambition when he first accepted the position, and with it accomplished he was anxious to step down and let someone else have a fling at the work, but the majority of the members refused to accept his resignation. Following are the officers elected:

Chairman—William Snyder.

Vice-Chairman—Fred Howard.

Secretary-Treasurer—Albert Waite.

The executive committee will consist of our representatives City, Central, East and Softball Leagues, but at last night's meeting the only league in a position to name its representative was the Central League, and President George Potter was named.

The amateurs can consider them selves lucky in securing the services of Albert Waite as secretary-treasurer, for he was not only willing to be appointed to accept the position after only much coaxing despite the fact that he is to receive \$500 a year for his services. Albert, like Bill Snyder, has held the position for years and his work was perfect, but he was anxious to make way for someone else.

Much time was spent in making

Selkirk Team No Match For T. C. C. Outfit**Westerners Bodily Out-weighted, Lose 10-1**

Toronto, March 24.—Even before the Selkirk Juniors of Selkirk, Man., took to the ice against Toronto Canoe Club in the O. H. A. Memorial Cup game at the Arenas last night the fate was quite plain that the western lads would be beaten. They were outscored in the first period, which resulted in a score of 10 to 1. Selkirk under a very decided physical handicap.

No smaller junior team was ever seen. One hundred and twenty of the schools in all sent out a small team, but the little Manitobans are positive-ly tiny. They could not hope to cope with the big boys from the West.

"But," Burch was easily the best player on the ice. He scored four of the ten goals and gave the pack that way a chance to score. Conacher and Coacher were also to the fore, while Moore in goal, made several clever stops.

Selkirk's Unique Defence

This new method of stopping runs proved to be the best. The defense men managed to secure the puck, for it gave them a chance to break away and score. The visitors' forward, however, were unable to get free from the defense players. T. C. C. however, solved the problem, and in the final minute, and even then they were not fully successful.

Speed seems to be a western attribute. Selkirk has plenty of speed, and the players are good skaters, but the dexterous skaters and finished stick-handlers, and like most western teams seldom resort to body-checking. The visitors' team, however, has been fast, but lost its fastness last night, anyway.

Selkirk's shooting was very inaccurate, but they checked their shooting after the first period to stand on the pack, and, it is said, to their credit, they never did quit trying, although their cause was an utterly hopeless one.

AS SMALL AS JOCKEYS.

The physique of the visitors is the most remarkable thing about them. They are like a collection of under-weighted children. Their bodies are clean and they have a system of defense unusual in amateur circles hereabout. When not in possession of the puck, they stand on their toes, live and limp up to await the attack of their opponents—much after the manner seen in some of the N. H. L. games.

The westerners are clever skaters and stick-handlers, and these qualities, combined with their speed, made them over-weighted about thirty pounds to the man, made them prime favorites with the crowd, and they deservedly won the game as their conquerors. To the credit of the latter, however, it is only fair to say that they held up to their reputation as slow players, and played the pack all the time.

SHERRARD PLAYS WELL.

Little Sheppard, on the defense for the Manitoba champions, made many brilliant end-to-end dashes, but he was not able to get the puck away from the puck. He overlooked chances after chance to pass the disc to a better position to score. Sheppard failed to develop into a real star in the first half.

Thorsteinson, the middle center, played well, but Burch, who had never got a chance to show the form that made him a star in the west. In fact, he showed that he can skate with the best, but he was not the most part he was not prominent.

FORMER ST. ANDREW'S BOY.

Hepp, who scored the only goal for the visitors, will be remembered as

FRED HOWARD
Elected Vice-Chairman of Hamilton Amateur Baseball Association at last night's meeting.**Knights Saw Boxing Show Last Evening****Hank Woods Supplies Hank for K. of P.**

changes to the constitution which will be published at an later date. The changes will be ones in regard to the players, it being decided to allow each team to carry fifteen men through the entire season. It is thought that this will keep the rule in former years, and no player will be allowed to sign a contract with any team after July 1st. The old rule, which is to do away with the solder clause in the constitution and every man who plays in any league this season will be paid when he has been a resident of this city since January 1st, 1920.

At the next meeting of the board a committee will be appointed to wait on the Board of Control in an effort to have the constitution changed by the people on January 1st last for the purpose of fixing up the athletic fields in the proper way.

George Walker, secretary of the O. A. A. and now in his last night's meeting and was nominated for a position on the board, but he declined the nomination. His reason was that he did not know just how long he would remain in the Ambitious City. Frank Hobson was also present, but was not nominated. It is doubtful if he would have accepted, as he is to run for president of the Ontario body again and it will require a great deal of time to do this. What this position should be he rejected.

Harry Penion and Alex Thompson represented the City League at last night's meeting. F. Hamilton and G. J. Dunn were also present. J. Johnson was looking after the interests of the Central section. C. J. Juttes and W. Sheppard as representatives.

Much time was spent in making

the boy who played for St. Andrew's College, in the Preparatory School, growth, last night. He has improved a whole lot, and was one of the best men for the team against T. C. C. Selkirk came a long way to get such a thorough trouncing. But they proved themselves a real plucky set, and even with a second chance they beat them in the battle until the final bell. It was a case of a good juvenile team being beaten by a junior team.

"Bury" Burch was easily the best player on the ice. He scored four of the ten goals and gave the pack that way a chance to score. Conacher and Coacher were also to the fore, while Moore in goal, made several clever stops.

Hank Woods and a dozen of his boys put on six whirlwind bouts for Beaver Lodge, the Knights of Pythias, last night at the LOLOP Temple. The scrum went round in style and the spectators were entertained by the antics of the Beaver Lodge boys.

Bobby Eber, bantamweight, weighed 112 lbs. and was the best. Jimmy Wible, lightweight champion of the world, in Windsor next month, will be a two-round bout with the world's sixth best. The boys will be at it fast and it was as neat an exhibition of the manly art as one could wish to see.

The greatest bout of the evening, from the standpoint of those who enjoyed a big laugh, was the three-round bout between Eddie Kelly and Ernie Erne. Erne is a ring comedian who has given Willie Fawcett backed right into a corner. Eddie Kelly, however, solved the problem, and in the third round, when the referee called a time-out, he was as neat an exhibition of the manly art as one could wish to see.

This new method of stopping runs proved to be the best. The defense men managed to secure the puck, for it gave them a chance to break away and score. The visitors' forward, however, were unable to get free from the defense players. T. C. C. however, solved the problem, and in the final minute, and even then they were not fully successful.

One only goal was tallied in the one session, but it was apparent to many of the spectators that the Red Men were very good, and the visitors' team was 2 to 1. The Canoeists were under restraint until the final minute, and even then they were not fully successful.

Speed seems to be a western attribute. Selkirk has plenty of speed, and the players are good skaters, but the dexterous skaters and finished stick-handlers, and like most western teams seldom resort to body-checking. The visitors' team, however, has been fast, but lost its fastness last night, anyway.

Sporting Comment

Previous to the H.A.B.A. meeting rumors were afloat that there would be many office vacancies, but when the time arrived there were not enough men to fill the vacancies. Had William Snyder and Alcott White retired as announced, the amateurs would have been in a bad way. The time for working for nothing is long past and the amateurs are going to find it a rather difficult task to fill the chairs from year to year with men who did this kind of work for the love of things.

Irish Kennedy and Eddie Gallagher will be busy boys on Monday night next. The former will battle in Buffalo, while Eddie is to exhibit his wares at Jackson, Mich. Manager Woods is making the trip to Buffalo with Kennedy, and should Irish win he is to meet Teddy Myers in a ten-round bout in the near future.

Setting foot on American soil yesterday for the first time, Georges Carpenter will start a nationwide boxing tour. The noted French heavyweight, who probably will meet Jack Dempsey, the world's champion, as soon as the latter's trouble with Uncle Sam has been ended, comes here with a splendid record. He is a typical athlete. He has lived freely and has devoted much of his time to many sports. Better still, he is a real fighter, and left the ring the day he answered his country's call. He has fully developed. Having lost all of his money during the war Carpenter naturally has returned to the ring to roll up another bank account, and if he is permitted to box Dempsey some time before next year he will retire with at least \$600,000 to his credit.

The tremendous amount of publicity that Carpenter is receiving will help boxing. Interest in the sport is bound to increase all over the United States. The Frenchman will have sent over a dangerous challenger for the world's title will arrive in a series of rings, followed by other citizens who are not so familiar with the many art, but who believe in American supremacy.

Dempsey and his manager, Kearns, who pleaded guilty of "slackerism" and conspiracy when arraigned in Frisco on Saturday, will be placed on trial April 3. Then the sporting public will obtain a line on the probable time for the big mill.

Knocking Down the Ten Pins

Last night at the Brunswick alleys, in the Business Men's League, Kwanie won three games from the Soverigns and the two from the Knights. Edington was the star bowler with 68. Johnson, second, with 64. The score:

MARKETS and FINANCE

STOCK MARKET ACTED WELL

Due for Reaction That Did Not Come.

Views of the Operators Are Mixed.

(Supplied by J. G. Besty & Co., members New York Stock Exchange.)

New York, March 24.—Considering the fact that the majority of traders were selling stocks yesterday and apparently working for a reaction, the market was not at all extremely satisfactory. The fact that almost everyone is talking about an "overdue reaction" seems to confirm the idea on the part of buyers that for all that the market gives ground stubbornly, and profit taking and short selling have so far not made any real impression on the market. At times yesterday there were signs of increasing interest in the rails, which should be watched closely, as there may be an interest against sooner or later shift to them, to a greater extent than it has so far. We particularly favor reading A. H. Houseman & Co.

SUMMARY.

New York, March 24.—The American Federation of Labor favors the amalgamation and election of officers of railroads, and that side of the "National Non-Partisan Campaign" Germany to form all-Service Cab-

gees, and to establish a re-establishment order and hold general elections.

Wabash Railroad, in year ending December 31, earning \$1 million, net, after taxes, against \$14.45 in 1918.

Canadian Pacific, dealing with stockholders for sale of \$12,000,000 equipment trust certificates.

President Franklin, of Mercantile Trust, says he will not be a candidate for dividends but no plan under consideration for paying off arrears in bond through issuance of new bonds.

Twenty industrial, 100.25 of 6%, twenty rails, 77.30 off 36.

Interest rates said to be definitely bullish, however, and promising a favorable situation in due time.

Some divergence of opinion regarding the money market.

National greater part of comment developed in favor of general motors. Report current that at Thursday meeting General Motors directors will declare dividend of 20 per cent. on off stock and \$2 a share on new certificates.

Meeting of Baldwin Locomotive workers was held with much interest because of rumors of important developments.

Interest in C.R.U. Steel may be imminent in specially promising way in day's trading.

Observed however that it and other stocks are not controlled by such that it is impossible for out-side to make definite predictions regarding market movements from day to day.

Report of Wabash Railway for 1919 shows balance transferred to off stock of \$17,728, against \$832,705 for previous year.

KIWANIS CLUB

Ald. T. B. McQuesten On Hamilton's Gas Problem.

His regular weekly luncheon of the Kiwanis Club was held yesterday at the Royal Connaught Hotel, with the average number present. The Attention Prize this week was donated by Kiwanian Fred Garrison, Chester Goertzen being the winner.

The club met with an audience of Ald. T. B. McQuesten, at the very interesting subject at the present time, of Hamilton's gas problem, and the discussion included the charters of the three gas companies in the city, when the charters were obtained, and the objects for which they were obtained, and the nature of the gas problem in Hamilton, leading up to the appointment of a special committee by City Council to make a thorough investigation as to the cause of the unsatisfactory supply, and the best method to overcome same.

The discussion included figures showing the increase in the number of consumers in the city during the past few years, as furnished by the local companies, and what is evidenced by the impossibility of the present demand in meeting the existing demand. The amount of gas produced in January 1920 was almost 50 per cent. less than in January 1919.

The group got some of the questions that had put to the Gas Company by the answerers thereto, and after the discussion had been had, did not offer any solution to the present problem but a franchise for the production of charcoal gas, the consumer, which the committee thought altogether too high, which led Ald. McQuesten to say that the proposition made by the committee, namely of the City of Hamilton building a municipal gas plant, was the best, but due to the existing distribution system of the present companies, and furnished figures of the probable cost of manufacturing gas, and had no hesitation in recommending the Vertical Retort System.

Ald. McQuesten compared the success of the Hamilton Water Works system and the probable success of Hamilton Gas Company, which would take upwards of a year to build.

He recommended the Kiwanis Club to adopt a report to the City Council to submit to the City Council to investigate the present Gas Problem in Hamilton.

The address was much appreciated and a hearty vote of thanks tendered.

GUILTY OF MANSLAUGHTER.

(Canadian Press Wire.)—Winnipeg, March 23.—William H. Kinick, confessed slayer of William D. Pritchard, who was killed in a bar last Friday night, was found guilty of manslaughter in the Superior Court of Manitoba yesterday. The defense was that he did not hold up the Retort Works for

Brown.—Don't you find reading a cook book might stupid? Oh, it has a good many stirring passages—Cartoon Magazine.

GRAIN PRICES COMING DOWN

Bullish Sentiment Has All Disappeared.

Operators Prefer to Sit Still and Watch.

(Supplied by Tompson, Forwood & Co., Merchants Bank Building.) Chicago, March 24.—A decided lessening in the buying enthusiasm and a drop on the part of most traders to allow for the buying side, with an increased selling pressure, carried prices down irregularly.

A large number of operators who have been buying oil, corn, wheat, etc., have sold out, and the market is now in a position to remain watchful rather than buyers for a few days.

SUMMARY.

New York, March 24.—The American Federation of Labor favors the amalgamation and election of officers of railroads, and that side of the "National Non-Partisan Campaign" Germany to form all-Service Cab-

gees, and to establish a re-establishment order and hold general elections.
